

ATCH 3
 CONVERSION TABLE - SECURITY ACCESS REQUIREMENT (SAR) TO
 POSITION CODING

SAR	POSITION CODING
0 or Blank (no access)	8 NACI (civilian) 9 (NAC)
1 Secret	6 NACLIC (military) 7 ANACI (civilian)
2 Top Secret	5 SSBI
3 SIOP-ESI	5 SSBI
3 AFOSI	5 SSBI
3 DoD Courier	5 SSBI
3 Presidential Support	5 SSBI Category 1 & 2 6 NACLIC (military) Category 3 7 ANACI (civilian) Category 3
S SCI	5 SSBI
4 Child Care	9 NAC

Note: Above table is a guide to convert positions from the Security Access Requirement system to the new Position Coding system. Some conversions will not be one for one and may vary depending on the situation, i.e, Presidential Support Category 1 and 2 requires an SSBI, and Category 3 requires a NACLIC. SAR codes "0" or "Blank" could possibly be coded other than 8 or 9, depending on original reason coded 0 or blank (possible mis-coding). In the conversion, could possibly convert to another position code as under the new system, every position is coded with an investigation requirement.
