

PERSONNEL / PAYROLL INTERFACE WORKAROUND

CPMS CONTROL NUMBER: 02-0011

ISSUE DATE: 5-Jul-02

PR/DAR NO:

RESCIND DATE: 15-Nov-2002

REMEDY NO: 6858/8059

PROBLEM : PERSONNEL PAYROLL
 LEGACY MODERN
 BOTH

PAY500 formats for Cuba Local National Records reflect erroneous zero values in positions 203-205, 295-301, and 346-348. In addition, the value being written for Pay Table Identifier is not being properly cross-walked to "0000". Missing from the format is the Annuitant Indicator required by payroll edits. All of these fields are identified on payroll rejects as invalid values or required fields not entered.

This Workaround is being rescinded and will be issued with modified workaround instructions as Workaround number 02-0014.

WORKAROUND: PERSONNEL PAYROLL

Using the CIVDOD Payroll Regeneration responsibility, user must modify each PAY500 format to resolve the erroneous or missing values and save the screen to accomplish the regeneration of a valid PAY500 format. FAXed SF-50s for manual payroll input are NOT Authorized for this problem.
