

# PERSONNEL / PAYROLL INTERFACE WORKAROUND

**CPMS CONTROL NUMBER:** 03-0012R

**ISSUE DATE:** 10-Jun-03  
**RESCIND DATE:** 25-Jul-2003

**PR/DAR NO:**  
**REMEDY NO:**

**PROBLEM :** **PERSONNEL**  **PAYROLL**

Implementation of DCPDS changes to reflect Imminent Danger Pay as a one-time payment has resulted in failure of PAY500 transactions at DCPS. The transactions fail at DCPS because of the NOAC being 5EC. DFAS is actually expecting a 5EN - a miscommunication caused a disconnect. Another SCR has been created to correct the problem in DCPDS.

**WORKAROUND:** **PERSONNEL**  **PAYROLL**

New authorizations of Imminent Danger Pay must be regenerated replacing NOA 5EC with NOA 5EN. The Payroll Regeneration process may be accomplished immediately following update of the element update. The 5EC transaction will reject - those payroll reject notifications may be ignored when the regeneration has already been completed.

**DATE TO DFAS/CPMS:** 10-Jun-03
