**PROBLEM :**                      PERSONNEL                       PAYROLL   
   LEGACY     MODERN   
   BOTH

Within Grade Increase processing for GM employees is setting erroneous step value of 10 when the new basic rate of pay meets the step 10 rate of the GS schedule. The transaction writes to payroll with NOA 891, but rejects because of the erroneous step. The salary is properly computed by the process. A payroll reject will be produced to the HRO.

**WORKAROUND:**                      PERSONNEL                       PAYROLL

Actions affected by this problem can be resolved by processing DoD Correction and changing the step back to 00. The salary amounts do not require modification. If accomplished within the two pay period pending time for the rejected transaction, no other action will be necessary.
