

PERSONNEL / PAYROLL INTERFACE WORKAROUND

CPMS CONTROL NUMBER: 02-0002R

ISSUE DATE:	30-Jan-02	PR/DAR NO:	
RESCIND DATE:	7-Feb-2003	REMEDY NO:	5058

PROBLEM : PERSONNEL PAYROLL
 LEGACY MODERN
 BOTH

This problem affect Navy WARFARE DEMO employees only: There are 12 Warfare DEMO employees with pay retention, pay rate determinant J or K, that cannot be given the 13 Jan 2002 pay adjustment because of a problem with the DCPDS pay calculation processes. There is no automated workaround for this problem, so the actions cannot be completed in system at all. The RPA process is giving an invalid edit that the pay cannot be over the maximum for the pay scale.

WORKAROUND: PERSONNEL PAYROLL

SF-50s will have to be manually prepared by the servicing HR staff using pseudo SF-50 method. The SF-50 must then be faxed to payroll for manual input by the payroll technician. Following correction of the system edit, the HR staff will input the pay adjustment action and flow the 894 to payroll. Timeframe for system change is currently unknown.
