

PERSONNEL / PAYROLL INTERFACE WORKAROUND

CPMS CONTROL NUMBER: 02-0004R

ISSUE DATE:	29-Mar-02	PR/DAR NO:	
RESCIND DATE:	30 April-2003	REMEDY NO:	5565

PROBLEM : PERSONNEL PAYROLL
 LEGACY MODERN
 BOTH

DoD Correction process does not currently allow for flow of corrections to DCPS in a skeletonized format. The full 500 character interface format is being written for each DoD Correction. The information reflected is based on the effective date of the action be taken. The problem arises when Date-Earliest-NOA-Effective is included transaction, as is typically done when correcting things such as SCD. The change then applies to more than just the action being corrected. Because the full 500 characters of data is being written, payroll system will apply ALL of the update attributes, including salary, back to the date identified in Date-Earliest-NOA-Effective.

WORKAROUND: PERSONNEL PAYROLL

The use of Date-Earliest-NOA-Effective is to be discontinued immediately with DoD Correction. In order to properly flow the information to payroll, a separate correction will have to be processed for each NPA to which the change is to be applied. This method is the only way to get the necessary changes to payroll and still flow information that is appropriate for the specific effective date.
