**PROBLEM :**                      PERSONNEL                       PAYROLL   
   LEGACY     MODERN   
   BOTH

Actions processed for employees in SL or ST Pay Plan when basic salary is set at the minimum amount of the range, \$95,652, are being rejected identifying CPDF Edit 650.98.1. The error indicates that the salary is outside the range of the CPDF edit table 21. The table used for this edit was found to contain a minimum value of \$95,653, one dollar more than the actual minimum amount.

A level 2 TAR has been logged with Oracle FED to fix the problem.

**WORKAROUND:**                      PERSONNEL                       PAYROLL

Complete the action giving the employee \$95,653 as their basic rate of pay. Maintain a record of the erroneous action to be corrected in DCPDS as soon as the edit table has been corrected. Following load of the corrected edit table, process Correction to the original action changing the salary to \$95,652. Overpayment to the employee will be insignificant considering the \$1 per year difference. No manual intervention by the payroll offices is authorized for this condition.
