

PERSONNEL / PAYROLL INTERFACE WORKAROUND

CPMS CONTROL NUMBER: 02-0010

ISSUE DATE: 28-Jun-02	PR/DAR NO:
RESCIND DATE: 7-Feb-2003	REMEDY NO: 1464

PROBLEM : PERSONNEL PAYROLL
 LEGACY MODERN
 BOTH

An on-going situation exists in DCPDS in the appropriate handling of temporary appointment extension actions and conversions from a temporary appointment due to expire. Unless the appropriate action, extension or conversion, is accomplished properly and timely, the employee is automatically terminated. The change in the business rules previously imposed by legacy DCPDS has created a significant learning curve as well as a tremendous workload in the absence of understanding and application of the new procedures. This workaround is provided in order to dispel misunderstanding of the appropriate processing steps required to properly manage these temporary assignments .

Oracle FED TAR #1294702.996

WORKAROUND: PERSONNEL PAYROLL

First, we are concerned that not all regions are scheduling suspense and futures runs on a daily basis. Failure to run these processes every day may be contributing to the problem. Please discuss this with your systems administrators.

The actual workaround is too large for insertion into this form. Please see the accompanying Word Document.
